

# EMPOWER YOUR TRAINING CAREER

[groupfitapp.com](http://groupfitapp.com)

# Why Choose Group Fit?

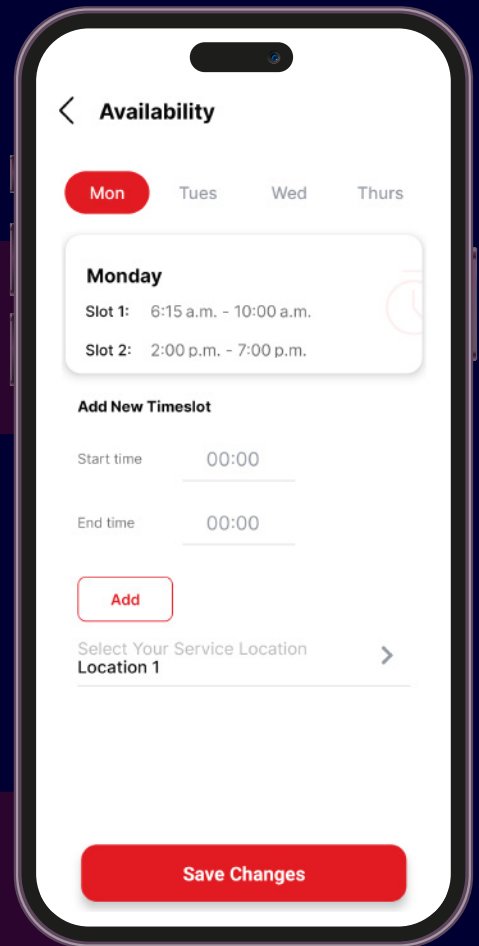

## 01 Empowerment and Flexibility

### Work on Your Own Time

With Group Fit, you have the freedom to set your own schedule and availability. You decide the days and hours you're available, giving you complete control over your work-life balance.

### Multiple Service Locations

Trainers can set multiple service locations for different days, allowing you to cater to clients in various areas. This flexibility ensures you can reach a wider client base and optimize your schedule effectively.

## 02 Maximize Earnings

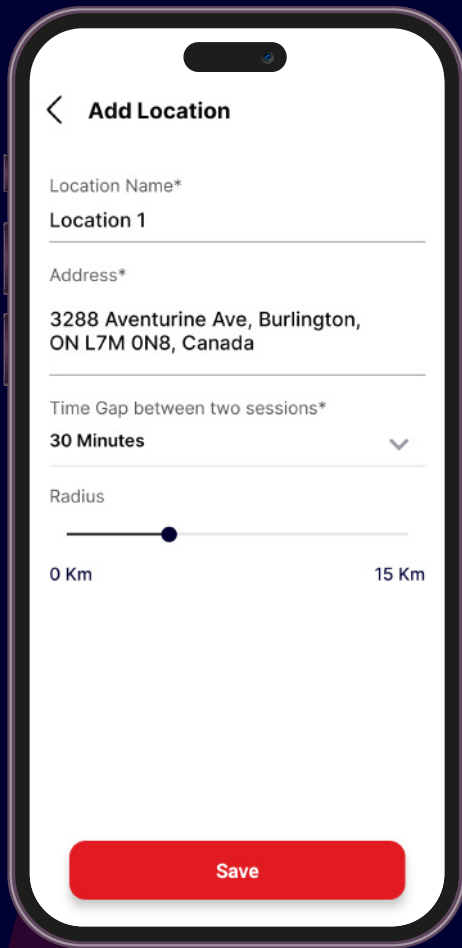

### Industry-Leading Commissions

Group Fit offers competitive commissions, allowing trainers to retain 60% of their earnings per session (T&C apply). This ensures that your hard work is rewarded and you can earn a substantial income from your training sessions.

### Consistent Pricing

Each training session is priced at a fixed rate of \$100, providing transparency and consistency for both trainers and clients. This standardized pricing helps you plan your earnings and clients to understand the value they are receiving.

# 03 Streamlined Client Management

## Automated Scheduling

Customers will only see your profile if you are available at their desired session time and offer the activity they are looking for. For instance, if you are booked until 10 a.m., a new customer will only see your profile if they want to book a session starting from 10:15 a.m. (based on a 15-minute gap between sessions), are within your service location radius, and have selected an activity you specialize in. This streamlines the process by eliminating manual communication.

## Choosing the Correct Time Gap

Choosing an appropriate time gap between sessions is crucial for ensuring you have enough time to travel between appointments. This time gap should be coordinated with your selected service radius. For example, if you choose a 50 km radius and a 10-minute time gap, you might receive bookings that are up to 40 km apart with only 10 minutes to travel. To avoid potential issues, select a radius and time gap that maximizes your availability while minimizing the risk of cancellations or negative reviews due to delays.

# 04 Profile Setup and Management

## Create a Profile

Include your basic details and a profile picture. This information helps clients know more about you. While your resume/CV is not shown to customers, it is used by GroupFit to ensure that experienced instructors are joining the team.

## Set Availability and Service Locations

Choose your working hours, the areas you wish to serve, Time Gap Between Two Sessions and Radius. This information ensures your profile is shown to potential clients within your service radius.

## Select Specializations

Highlight the activities you excel in. If you don't find a specialization listed, please email [support@groupfit.odoo.com](mailto:support@groupfit.odoo.com) and we will consider adding it.

## Verify Identity

All trainers are required to complete ID verification through Plaid before offering services on Group Fit. This crucial step enhances your profile by adding authenticity and assures clients of your legitimacy. By verifying your identity, you showcase your commitment to maintaining a trustworthy and secure environment for all users.

## Stripe Account

Trainers must complete their Stripe account setup during onboarding. Although Stripe requests personal information, including bank details, this is necessary for secure earnings transfers. Stripe is a trusted payment processor with top-notch security, ensuring prompt and safe receipt of your earnings.

# 05 Managing Sessions and Earnings

## Today's Schedule

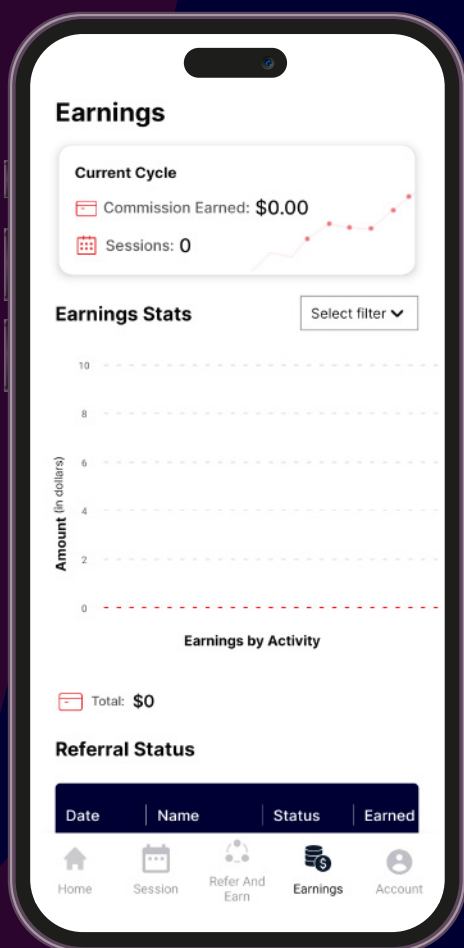

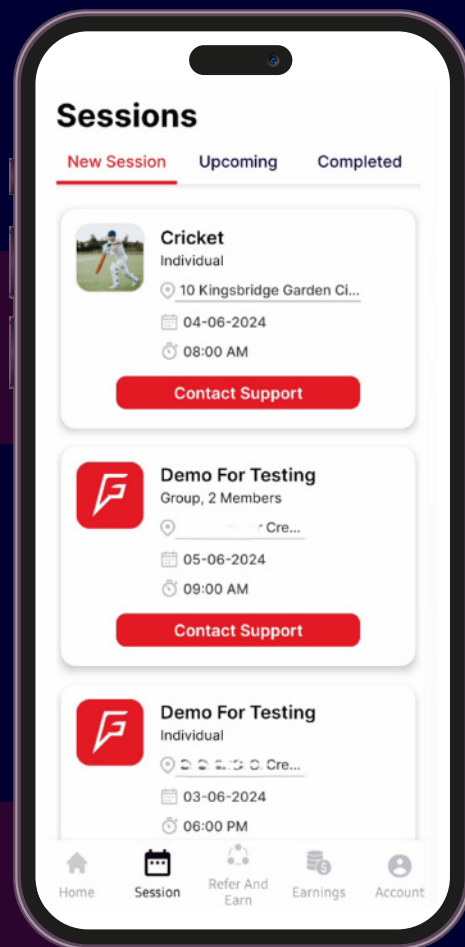

When a customer makes a booking, the next session for the day will appear under "Today's Schedule" on the home screen of the app, keeping you informed and prepared.

## New Sessions and Earnings

Sessions booked in the future will show up under "New Sessions," and your current earnings will be visible under "Earnings" on the home screen.

## Comprehensive Session Management

Under the "Sessions" menu, you can see all your upcoming and completed sessions. You'll also have the option to contact support if you need to cancel or reschedule a session. These requests will be processed by the Admin team.

## Customer Information

For each session booking, you'll receive the customer's address, name, activity, booking time and date. You'll also be able to call the customer 15 minutes before the booking time if you need to contact them for directions or other details.

## Individual and Group Bookings

Customers can book sessions individually or as groups, with the price and your commission remaining the same. For group bookings, you'll see all group members' names, and each member can leave a review after the session, providing multiple feedback points for your profile.

## Mark as Completed

Once a session is completed, mark it as such by clicking the "Mark as Completed" button under the respective session card.

## Earnings Overview

Under the "Earnings" menu, you'll be able to see your current commission earned and the number of sessions completed. Once transferred, you can view the data as a bar chart.

# 06 Additional Features

## Maps Integration

Pressing on the customer's address will automatically open your maps app with the address pre-filled.

## Push Notifications

Stay informed with push notifications for new session bookings, reminders before sessions start, when a customer leaves a review, and after a session ends to remind you to mark it as completed.

## Profile Management

Update your profile, service locations, availability, and specializations in the "Account" section. To view customer ratings, go to "Account," select "My Profile," and click the three dots menu in the top right corner to choose "View Public Profile."

Elevate your career with Group Fit, where you can seamlessly manage your schedule and boost your earnings. Benefit from flexible service locations and automated scheduling, allowing you to concentrate on delivering exceptional training sessions without administrative burdens.
